Professional Summary

Computer Science undergraduate with a strong foundation in backend development, RESTful APIs, database management, and full-stack web technologies. Skilled in Node.js, Express.js, MongoDB, and React.js, with the ability to build scalable, maintainable, and efficient web applications. Focused on solving real-world problems, optimizing application performance, and developing reliable software solutions that meet business needs.

Education

B.Tech in Computer Science and Engineering
IMS Engineering College 2023 – 2027 *CGPA: 8.6*

Intermediate (12th), CBSE
Tithonus International School *Percentage: 91%*

Skills

Programming Languages: C++, JavaScript, Python, SQL
Front-End Development: HTML5, CSS3, React.js, Tailwind CSS
Backend Development: Node.js, Express.js, REST APIs, JWT Authentication
Databases: MongoDB, MySQL, Mongoose
AI Development: Gemini API, AI-Assisted Coding and Debugging
Development Tools: Git, GitHub, VS Code, Postman, npm, Vite
Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks
Development Concepts: CRUD Operations, API Integration, Authentication & Authorization, Role-Based Access Control (RBAC), Real-Time Communication

Experience

IT Intern **June 2026 – July 2026**
Advind Healthcare India Pvt. Ltd. *Noida*

- Developed 8+ interactive dashboard widgets for an air quality analytics platform, improving data visualization.
- Contributed to dashboard development and implemented assigned requirements within project timelines.

Projects

DevOpsHub – Developer Collaboration Platform | *React.js, Node.js, Express.js, MongoDB, Socket.io* | GitHub | Demo

- Built a full-stack developer collaboration platform supporting organizations, projects, tasks, issues, and sprints with JWT authentication and role-based access control.
- Implemented REST APIs, MongoDB data management, and Socket.IO for real-time team communication, notifications, and project updates.

InterviewAI – Interview Preparation Platform | *React.js, Node.js, MongoDB, Gemini API* | GitHub | Demo

- Built an AI-powered platform that analyzes resumes and job descriptions to generate personalized interview questions, identify skill gaps, and recommend preparation plans.
- Integrated Gemini API and implemented PDF resume parsing, Zod validation, JWT authentication, MongoDB persistence, and PDF generation using Puppeteer.

StayEase – Property Booking Platform | *Node.js, Express.js, MongoDB, EJS, Tailwind CSS* | GitHub | Demo

- Developed a full-stack property booking platform supporting user registration, property listings, favorites, and booking management.
- Implemented session-based authentication, authorization, CRUD operations, server-side validation, image uploads using Multer, and MongoDB data management with Mongoose.

Achievements

- Solved 350+ DSA problems on LeetCode, demonstrating strong problem-solving skills.
- Built and deployed 9+ full-stack web applications using modern web technologies and REST APIs.
